

Permission to Live

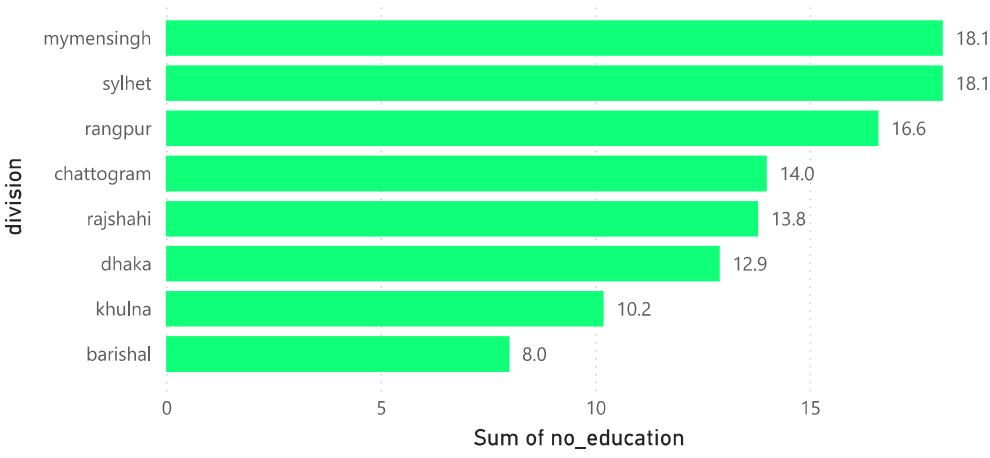

A Data Investigation into Women's Healthcare Inequality Across Bangladesh

Data: BDHS 2022 | 30,078 Women | 8 Divisions

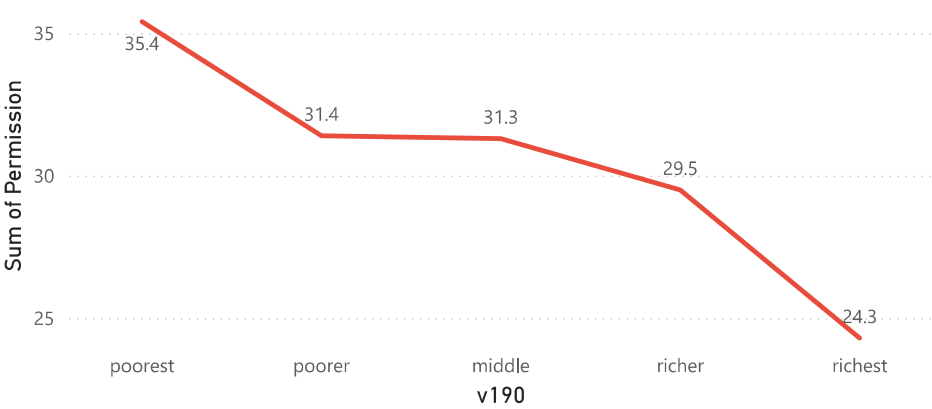

Permission Barrier by Division (% of Women)

Women with No Education by Division (%)

Permission Barrier Decreases as Wealth Increases (%)

Key Findings

- Chattogram — Highest barrier: 35% of women need permission
- Khulna — Lowest barrier: 26% of women need permission
- Warning: Permission is the #1 barrier — bigger than distance or safety
- Bar Chart: Even the RICHEST women face 24% permission barrier
- Smiley Face: 30,078 women surveyed across 8 divisions — BDHS 2022
